#### GOOD RAILWAY AND STEAMBOAT SERVICE

HEALTH, ECONOMY, COMFORT AND ACCESSIBILITY

ARE THE STRONG POINTS IN FAVOR OF

## MUSKOKA LAKES RESORTS

THE term Muskoka Lakes refers chiefly to the three fair sister lakes, Muskoka, Rosseau, and Joseph. The sinuous shores of these three lakes form a coast line of hundreds of miles, with some four hundred beautiful islands studded with considerable regularity, thus affording adequate protection and shelter for the frailest canoe or row-boat. The lakes are traversed in all directions by the comfortable steamers of our Muskoka and Georgian Bay Navigation Co. Upwards of thirty-five hotels and boarding houses are regularly distributed along the Lakes, and are quite accessible for the twice-daily steamers.

#### From Outing, June, 1893.

"The marvelous lake region of Muskoka is rapidly becoming one of the most popular resorts in Canada, and favored alike by natives and their cousins from this side of the Imaginary Line. Nor is this to be wondered at, for in all the grand expanse of the North American continent there is not to be found another region of fresh water so extensive, with an atmosphere as healthful, and possessing such an infinite variety of scenic attractions, and at the same time offering so many facilities for sport with rod and gun. The Muskoka region is simply the beau ideal of a holiday resting place for families, artists, anglers, sportsmen, and canoeists. A great expanse of lovely beauty, embracing every phase of the wildly picturesque, yet softening at many points to the simple loveliness of mossy rocks and baby inlets, floating like green turtles upon a dreamy flood of silver sheen and velvet shadow.

"Its salubrious atmosphere, fatal to hay-fever, its elevation above the great lakes, its marvelous natural beauties, and the facilities for reaching any part of it by combined rail, steamer, and canoe routes, are the secrets of its growing popularity. The water is free from lime, and certain medicinal properties are claimed for it which act beneficially upon kidney troubles. A feature of Muskoka holiday life which recommended it to many an over-tasked paterfamilias is its cheapness. I could name, if necessary, half a dozen men whose incomes are less than fifteen hundred dollars a year who, with their wives and families spend a few weeks each season in these charming wilds."

For further particulars apply to the agents of the Grand Trunk Railway in Canada and the United States, or to

## THE MUSKOKA LAKES

is no exaggeration of facts to state that the Muskoka Lake Resorts occupy a position unique among the various resorts of the North American continent; and without wishing to detract from the attractions of other summering places, it is no more than fair to say that the Muskoka Lakes possess a peculiar charm which grows upon all who have given them a thorough test. It would appear that nature has arranged the extent and position of the lakes most admirably for a series of pleasant and convenient outings amid ever-varying scenes. The Lakes, though of considerable extent, are yet sheltered by numerous islands and headlands, and seem to possess an almost inexhaustible number of fascinating bays and nooks, which have never all been explored

by one and the same individual, not excepting the oldest resident or visitor who has frequented the Lakes since their discovery many years ago.

Something like four hundred beautiful islands are distributed throughout the three connected Lakes—Muskoka, Rosseau, and Joseph. The waters of the Lakes are deep, soft, and limpid, with occasional sandy beaches; but, for the most part, the shores are rock-bound, the waters are both soothing and refreshing for toilet and bathing purposes, the islands and shores are beautifully adorned with a foliage of variegated green, and with an interesting fauna and flora, such as might well deligned the botanist and lover of sylvan scenery.

As the Muskoka Lakes are upon an elevated plane, many hundreds of feet higher than the great lakes, the atmosphere is most pure and bracing, and sufferers from asthma, hay fever, and pulmonary diseases experience immediate relief. Steamboat and railway accommodation is expeditious, comfortable, frequent, and inexpensive. Hotel and boarding accommodation is abundant and reasonably good, while the charges are most moderate. The tables are supplied with fresh fish from the fishing grounds of the neighborhood, and with fresh milk, butter, and vegetables produced upon the hotel farm. In addition to this, a plentiful supply of the deliciously flavored Muskoka lamb is always at hand; fresh berries of all kinds are to be had for the picking throughout nearly all parts of the lake region; in fact, no pleasanter or more honelike resort is to be found, while the expense of reaching the Lakes, and sojourning thereat, is less than to any other resort of the kind. Churches are convenient to all points; supply stores of all kinds are to be met with at nearly all the resorts; wagon roads and bush paths lead in all directions; pleasant side trips can be taken to numerous small lakes, tributary to these three large ones. Visitors to Muskoka will always receive a hearty welcome, and be made to feel at home on board the steamers, and at all the different resorts.

Any information that may be desired by intending visitors will be cheerfully and promptly furnished by

A. P. COCKBURN, Manager and Secretary of the Muskoka Navigation Co.,

Gravenhurst, Canada,

and by the several agents throughout Canada and the United States.

#### MUSKOKA LAKE DISTRICT

FROM "INDUSTRIES OF CANADA."

There is probably no part of Canada which offers so much attraction to the tourist as does the favored region known as the Muskoka District, and which ought to be known by all who are interested in the scenery of their country, and by all who wish for a convenient place to spend an inexpensive holiday. The Northern Lakes of Canada are aptly designed the "Sportsman's" Paradise, for the best of fishing, shooting, and boating is here to be had. The fresh and pure air of this elevated region, with its picturesque surroundings of lake and forest, cannot fail to invigorate exhausted physical nature. The peculiar softness of the limpid water and resinous odor of the pine forests are most health-giving.

In the Muskoka Division proper are included the island-dotted lakes—Muskoka, Rosseau, and Joseph, points along which are reached by steamer from Gravenhurst. These lakes extend a distance of fifty miles in a direct line, with irregular shore, forming a coast of some two hundred miles. These lakes, as may be judged from their formation, present unrivalled facilities for boating and camping. The principal varieties of the finny tribe are salmon trout, white fish, bass, and pickerel, with maskinonge in adjacent lakes and streams. The chief points of resort are Beaumaris, Port Carling, Windermere, Maplehurst, Rosseau, Ferndale, Clevelands, Port Sandfield, Redwood, Hamills, McLean's, and Port Cockburn, at all of which places most desirable accommodation may be had at reasonable rates.

Connections made with the following trains from Toronto (Union Station), viz., Mail Train at 8.20 a.m., Muskoka Express at 10.40 a.m., and Pacific Express at 11.15 p.m., having extra sleeping car attached for Muskoka Wharf (berths at the special rate of \$1.50 each). With trains leaving Hamilton daily (via Allandale), at 7.05 a.m., and (via Toronto) at 9.15 a.m., connecting with Muskoka Express, and also at 9.25 p.m. (via Toronto), connecting with Pacific Express.

With trains leaving London at 6 a.m., connecting with Muskoka Express at Toronto 10.40 a.m. At 4.25 p.m., connecting with

Pacific Express at Toronto at 11.15 p.m.

#### GOING NORTH
